Project Worksheet

Submit one Project Worksheet per project.
Project Worksheets ***must*** be updated annually.

Part A: To be submitted during Fall Semester

Date submitted: 12/31/10

Current School Year: 2010-2011

School Name: Round Top Elementary

School District: Richland 2

School County: Richland

School Mailing Address: 449 Rimer Pond Road, Blythewood, SC 29016

School Phone Number: 803-691-8676

Size of Student Body: 655

City/County Coordinator Name E-mail:

Green Steps Project Plan. Project plans should include:

1. a time line incorporating project requirements,
2. a description of the education components of your project, and
3. a description of the action components of your project.:

Fall 2010

- *DHEC representative came out in fall of 2009 to speak to Teri Anton about B2 program.
- *Literature, signs and other materials were passed on to Round Top from DHEC.
- *Anti-Idling signs have been posted around school in bus rider and car rider lines.
- *4th and 5th grade students are given the opportunity to serve on Round Top's "Energy Patrol".
- *Once established, the "Energy Patrol" counts cars in our car rider line. Cars that are idling get a reminder of the positive effects NOT idling has on our air quality while cars that are not idling get a huge THANK YOU and a treat of some sort.
- *The same process is done in our bus rider line.
- *Once baseline data is collected, it is sent to Marian Nanney with DHEC.
- *Spring goal – to greatly reduce the amount of cars and buses that are idling on our school grounds.

Educational Components

- *By charting progress, students are seeing growth or decline in our air quality. We have set a goal of less than 25%!
- *Students collect, contrast and analyze data using statistical math skills.

Action Components

- *Post signs and educate community about anti-idling.
- *Establish responsible group to collect data.
- *Count cars and buses and record fall data.
- *Mid-year data will be collected in January.
- *End of year data will be collected in May.

Sustaining Projects for which you have already received a Green Step (if applicable):

Three additional environmental projects that your Green Steps team has or hopes to establish over time (see project pages on website for ideas):

Project 1: Recycling

Project 2: Litter Prevention

Project 3: Compost

Project 4: Energy Conservation

Part B: To be completed and submitted by May 1.

Date submitted:

1. Date, location, and name of team member who attended a Green Steps Training:

Teri Anton – Sonoco Recycling – October 14, 2010

2. Describe the year-end results of your project. Include successes and things that need improvement.

Submit the completed project worksheet (in the Fall and again by May 1) by e-mail to Jane.Hiller@sonoco.com. Please don't forget to save a copy for your records.
